

DOLPHIN WAVE

Recommended for large commercial pools.

The professional, non-compromising answer for systematic, thorough and reliable pool cleaning for large commercial pools.

Scanning:

- Intelligent navigation system ensures complete coverage of every pool type and shape.

Brushing:

- Active brushing system with rotating brushes specially designed to brush, scrub and remove dirt from the pool floor, slopes, edges and corners.

Filtration:

- High filtration capacity and super suction power of 10,560 gal/hr through two unique ultra fine porosity, easy-to-replace disposable filter bags.
- Top user-friendly access to the filter bags.

MMI (Man Machine Interface):

- An interactive state-of-the-art MMI digital control panel enabling full control of cycle time, operation delay, scanning system (navigation, logical), diagnosis of technical function and parameters.
- Remote control for manual maneuvering.
- Self entry and submerging into the pool.

Safety:

- Safety and reliability – overload-detection mechanism for protection, designed for long-lasting, safe operation with a low voltage of 38 volts.

Robustness:

- Robust, heavy-duty design to meet the tough demands of daily use in public pools.

Warranty:

- Full 2-year “bumper-to-bumper” warranty.*
- User-friendly poolside maintenance.
